

What Is a Referral Code and Where Can I Find It?

A referral code is a unique identifier used to track users who join the AURUM Ecosystem through your invitations. This code is part of the Partner Program and is linked to your structure and Legacy Volume.

You can find your referral code:

at the top of the dashboard after logging in

or inside the Partner Program section located under the Legacy Levels block.

–

2. What is the "Access to Aurum Ecosystem" Subscription and Why Do I Need It?

The "Access to Aurum Ecosystem" subscription unlocks all core ecosystem features, including trading bots and participation in the Partner Program.

This annual access is required to activate income opportunities within AURUM, engage in the Partner Program structure, and stay connected to official updates, trainings, and events.

–

3. Is the "Access to Aurum Ecosystem" Subscription Mandatory?

Yes, the subscription is mandatory to access all Aurum ecosystem products and services, participate in the Partner Program, and attend training programs and events.

–

4. How Long is the "Access to Aurum Ecosystem" Subscription Valid For? The subscription is valid for one year.

–

5. How Do I Activate the Aurum Ecosystem Subscription?
Step-by-Step Activation Guide

Go to your Dashboard.

Click on Main balance.

Select Access to Aurum Ecosystem to open the subscription page.

Review the subscription cost: Annual Fee – 19.99 USDT.

Make sure your Main balance has sufficient funds to cover the fee.

(Optional) Enable Automatic Renewal if you want the subscription to renew automatically each year.

Click Confirm to proceed with the payment.

A confirmation window will appear – click Confirm Purchase to activate your subscription.

After activation:

Your subscription status will display as Active.

The next payment due date will be shown on the screen.

To cancel your subscription:

Open the subscription page and click Cancel Subscription.

–

6. How Do I Purchase a Package in Aurum?

Go to the Financial proposals section in the left-side menu.

Select Ex-AI Bot.

In the Deposit packages section, click Create deposit.

Choose the source of funds:

Main balance

Affiliate balance (Partner balance)

Enter the deposit amount.

Accept the Rules of participation by checking the confirmation box

Click Create deposit to complete the process.

Accept the terms and click Create deposit.

Depending on the deposit amount, the system will activate the corresponding package:

Basic: 100–249.99 USDT

Standard: 250–999.99 USDT

Comfort: 1,000–2,499.99 USDT

Optimal: 2,500–4,999.99 USDT

Business: 5,000–9,999.99 USDT

VIP: 10,000–24,999.99 USDT

Luxury: 25,000–49,999.99 USDT

Ultimate: 50,000–99,999.99 USDT

After creating the deposit, you will see the message: "Deposit successfully created! Accruals will start at 12:00 AM or 12:00 PM (UTC) depending on the deposit schedule."

Return to your Dashboard, your package will appear automatically according to the deposited amount.

–

7. How Do I Withdraw Funds?

Go to the Dashboard and select Main balance.

Click Withdraw.

Choose your asset (e.g., USDT TetherUS) and the corresponding network (e.g., TRON TRC20).

Enter your wallet address in the Wallet address field.

Select the network that matches your wallet (e.g., TRON TRC20).

Click Continue to proceed.

Enter the amount you want to withdraw and click Withdraw to confirm.

–

8. How Do I Replenish My Aurum Account?

Go to the Finance section.

Select Top-up account.

Choose your asset (e.g., USDT TetherUS) and the corresponding network (e.g., TRON TRC20).

Click Continue to move to the next step.

Copy the wallet address provided or scan the QR code to transfer the cryptocurrency.

Ensure that the network and cryptocurrency match the ones selected on the platform.

After sending the funds, monitor the transaction status in the Recent top-up's section.

The funds will be credited to your Main balance once confirmed.

Minimum Deposit: Ensure your deposit meets the minimum requirement (e.g., 3.3 USDT for TRON TRC20).

No Replenishment Fee: The platform does not charge a fee for replenishment.

—

9. What Fees Apply When Withdrawing Funds?

When withdrawing funds from your Aurum account, the total withdrawal fee consists of two parts:

1% payment system commission

Network commission, depending on the selected blockchain network:

Tron (TRC20): 3.50 USDT

BNB Smart Chain (BEP20): 1.00 USDT

Polygon POS: 1.01 USDT

Ethereum (ERC20): 10.01 USDT

The final amount you will send is displayed in the You will send field before confirming the withdrawal.

—

10. How Do I Transfer Funds from the Affiliate Balance to the Main Balance?

Go to the Partner Program section.

Click the Transfer button next to your Affiliate balance (Partner Program).

Enter the amount you want to transfer.

Confirm the transfer by clicking Confirm Transfer.

Once completed, the transferred amount will appear in your Main balance and will be available for withdrawal or for creating a deposit.

—

11. What is the Minimum Withdrawal Amount?

The minimum amount for withdrawal is 25 USDT.

—

12. How Long Does it Take to Process Withdrawals?

Once a withdrawal request is created, the funds are processed and transferred to your wallet within 48 hours, depending on network conditions and verification.

–

13. What Networks Are Supported for USDC Withdrawals?

Aurum supports USDC (USD Coin) withdrawals through the following networks:

BNB Smart Chain (BEP20)

Polygon POS

Ethereum (ERC20)

–

14. What Networks Are Supported for USDT Withdrawals?

Aurum currently supports USDT (TetherUS) withdrawals through the following networks:

BNB Smart Chain (BEP20)

Tron (TRC20)

–

15. What Should I Do If the Funds Don't Arrive in My Wallet?

Check the transaction status in the Recent withdrawals section.

Ensure the wallet address and network used are correct.

If the issue persists, contact customer support for assistance.

–

16. Can I Cancel a Withdrawal Request?

No, withdrawal requests cannot be canceled after confirmation. Please double-check all the information before confirming your withdrawal.

–

17. Are There Any Withdrawal Limits?

The minimum withdrawal is 25 USDT. The maximum withdrawal depends on your current balance and the platform's conditions.

–

18. How Can I Check the Status of My Withdrawal Request?

You can check the status of your withdrawal request in the Recent withdrawals section:

Pending: The request is awaiting processing.

Approved: The request has been approved and is being processed.

Done: The funds have been successfully transferred to the designated wallet.

–

19. What Should I Do If I Entered the Wrong Wallet Address?

If you entered the wrong address, the funds might be lost. Always double-check the wallet address before confirming the withdrawal.

–

20. Can I Combine Multiple Deposits into One?

No, deposits cannot be combined. Each deposit is created and managed separately, with its own balance and schedule.

If you accidentally created a new deposit but intended to add funds to your existing one, please contact AURUM Support. The support team will review your request and help resolve the situation.

–

21. Can I Create Multiple Deposits?

Yes, you can create multiple deposits, even for the same package. You can distribute your funds across different deposits according to your financial goals and available amounts

–

22. When Does Profit Start Accruing on a New Deposit?

Profit starts accruing within 12–24 hours after your deposit is activated.

The first accrual is processed at the next scheduled time – 12:00 AM or 12:00 PM (UTC), depending on when the deposit was created.

–

23. Can I Add More Funds to My Existing Deposit?

Yes. You can increase an active deposit in two ways:

Top Up – manually add more funds at any time.

Reinvest – your daily earnings are automatically added to this deposit when the option is enabled.

–

24. If I Add More Funds or Enable Reinvest, Does the 365-Day Period Reset?

Each new amount you add whether through Top Up or Reinvest – starts its own 365-day period before early-withdrawal fees no longer apply. Your original deposit keeps its own timer, and every added amount receives a separate one.

–

25. What is the Maximum Profit on Deposit Packages?

The maximum profit on deposit packages can reach up to 16.62% per month.

–

26. What Should I Do If My Deposit Has Not Arrived?

If your transaction is delayed or the funds have not appeared in your account, contact AURUM Support and provide the following details in text format (not screenshots):

Date – when the transaction was made

Amount – how much you sent

Transaction Hash (TxID) – the unique transaction ID

Network – the blockchain network used (e.g., TRC20, BSC, Polygon)

Coin – the asset sent (e.g., USDT, USDC)

You may also send a direct link to the transaction in a blockchain explorer for faster verification.

Support will review your transfer and assist you with updating the status.

–

27. When Does the Purchased Deposit Package Activate?

The deposit package activates daily at 12:00:00 AM or 12:00:00 PM (UTC).

–

28. How Often is Profit Accrued?

Profit is accrued daily, 7 days a week.

–

29. How is Profit Calculated on Deposit Packages?

Profit is calculated monthly at a rate of up to 17.5%. However, depending on the selected package, you will receive between 60% and 95% of the total profit generated.

For example:

If you have a deposit of 1000 USDT, the platform generates 15.8% profit, but based on your package, you might receive only 70% of that total profit.

Note: You can enable automatic reinvestment of your profit by toggling the Reinvest option.

–

30. How Long Does it Take to Withdraw Accumulated Profit?

Accumulated profit is available for withdrawal 24/7. Once a withdrawal request is submitted, the funds will be transferred to your wallet within 72 hours, depending on network processing and system load.

–

31. When Can I Withdraw My Deposit?

The deposit can only be withdrawn on the 1st, 10th, and 20th of each month. Follow these steps:

Go to the My deposits section and click Withdraw.

A pop-up will appear where you can request the withdrawal.

If withdrawing before the deposit reaches one year, a 35% fee will apply. After one year, no fees are charged.

Note: The withdrawal of the deposit itself takes 7 business days.

–

32. What is the Fee for Withdrawing the Main Deposit Amount?

The fee for withdrawing the main deposit amount is 35%. However, after one year, no fee is charged for withdrawing the deposit.

–

33. How Long Does it Take to Withdraw the Main Deposit Amount?

The main deposit amount will be transferred to your wallet within 7 business days.

–

34. When Can I Withdraw Accumulated Profit?

Accumulated profit can be withdrawn 24/7

–

35. When Can I Withdraw Earnings from the Affiliate Program (Partner Program)?

Withdrawal requests for affiliate earnings can be made 24/7.

–

36. How Long Can I Use the Reinvest Function?

You can use the Reinvest function for as long as your deposit remains active.

There is no fixed minimum or maximum period; you decide how long to keep reinvesting.

–

37. How Long Does it Take to Withdraw Affiliate Program (Partner Program) Earnings?

Affiliate earnings will be transferred to your wallet within 72 hours.

–

38. How Do I Withdraw My Profit?

To withdraw your earned profit:

Go to Financial Proposals. Select Ex-AI Bot to open your deposit list.

Go to the Deposit balance and click Withdraw next to the profit amount.

The platform will transfer your profit to your Main balance.

You cannot withdraw profit from individual deposits; the system processes all profits together.

Note: The platform does not charge a fee for withdrawing profit.

–

39. How Does the Partner Program Work?

The Partner Program allows you to earn rewards from product activations and team activity across your structure. Your earnings are based on official AURUM metrics such as Legacy Volume, Legacy Levels, and the difference in ranks.

The Partner Program includes several types of income:

Direct Sales: Instant earnings from every personal sale – including deposits, top-ups, and compounding. Each time a new user joins through your referral link and activates a product, you receive a percentage of the transaction.

Team Sales: Earnings from the total Legacy Volume generated by your entire team. You receive the difference between your Legacy Level and the Legacy Levels of your team members – up to 18.5%.

Profitshare: Up to 30% additional passive income based on your partners' results from EX-AI Bot, EX-AI PRO, and Zeus AI Bot.

Extra Bonus: Additional rewards for reaching each new Legacy Level, motivating long-term growth within the Partner Program.

Shareholder Bonus: A quarterly reward shared with partners starting from AURUM ORACLE and above, based on global EX-AI Bot efficiency.

You can track your structure, Legacy Volume, rank progression, and earnings inside the Partner Program section.

–

40. How Do I Advance to the Next Legacy Level?

You advance to the next Legacy Level by meeting three key requirements, all of which can be tracked in the Partner Program section:

Qualified Legacy Volume (LV): how much qualified team volume you still need.

Total Legacy Volume (LV): the remaining total team volume required.

Personal Contribution: how much of your own deposit contribution is still needed.

–

41. What If I Forget My Password?

If you forget your password, you can click on the Forgot password link on the login page. You will be asked to provide your email, and a reset code will be sent to you. Once you receive the code, enter it, and then you will be prompted to set a new password.

–

42. How Can I Track My Progress Toward the Next Legacy Level?

You can track your advancement directly in the Partner Program section. The system shows exactly how much remains to reach the next Legacy Level.

–

43. How Is the Direct Sales Bonus Calculated?

The Direct Sales bonus is calculated as a percentage of every personal activation made by a user who joins through your referral link. Your percentage is determined by your Legacy Level and your Legacy Percentage. The higher your Legacy Level, the higher your Direct Sales percentage – up to 18.5%.

Example

If your Legacy Level is Aurum Elite and your Legacy Percentage is 14.5%, and a personally referred partner activates a 10,000 USDT deposit, your Direct Sales bonus will be:

$$10,000 \text{ USDT} \times 14.5\% = 1,450 \text{ USDT}$$

The bonus is directly linked to your Level and the amount deposited by your referred partner.

–

44. How Is the Team Sales Bonus Calculated?

The Team Sales bonus is earned from the activity of your entire structure. It is calculated based on the difference in Legacy Percentage between your Legacy Level and the Legacy Level of your

first-line partner. If your Legacy Percentage is higher, you receive the percentage difference even when the activation happens on deeper levels in your team.

Example

If your Legacy Level is Aurum Magnat with a Legacy Percentage of 15.5%, and your first-line partner is Aurum Nexus with a Legacy Percentage of 10.5%, and a partner in the third line activates a 10,000 USDT deposit:

$$15.5\% - 10.5\% = 5\%$$

$$10,000 \text{ USDT} \times 5\% = 500 \text{ USDT}$$

This ensures that you earn from the deposits made by your team, even from deeper levels in your structure.

—

45. How Is the Profitshare Bonus Calculated?

The Profitshare bonus is available starting from the Aurum Voyager level. You receive up to 30% additional passive income based on your partners' results from EX-AI Bot, EX-AI PRO, and Zeus AI Bot. Profitshare is calculated using the difference in Profitshare percentage between your Legacy Level and the Legacy Levels of your first-line partners.

Example

Your Legacy Level is AURUM ELITE with a Profitshare of 19%.

You have three first-line partners, each at AURUM VANGUARD PRO with a Profitshare of 10%.

Together, their teams generate 20,000 USDT of eligible bot profit in a month.

Your Profitshare from these partners is calculated as:

$$\text{Difference in percentage: } 19\% - 10\% = 9\%$$

$$\text{Monthly Profitshare reward: } 20,000 \text{ USDT} \times 9\% = 1,800 \text{ USDT}$$

If a first-line partner has the same or higher Profitshare percentage than you, you do not receive any reward.

Profitshare Percentages by Legacy Level

AURUM VOYAGER – 5%

AURUM VANGUARD – 7.5%

AURUM VANGUARD PRO – 10%

AURUM NEXUS – 12.5%

AURUM ORACLE – 15%

AURUM PRIME – 17.5%

AURUM ELITE – 19%

AURUM MAGNAT – 20.5%

AURUM MYTHOS – 22%

AURUM LEGEND – 23.5%

AURUM DOMINION – 25%

AURUM ARCHON – 26.5%

AURUM PANTHEON – 28%

AURUM ALPHA – 30%

–

46. How Is the Shareholder Bonus Calculated?

The Shareholder Bonus is a quarterly reward for partners starting from the Aurum ORACLE level and above.

Up to 3.125% of the global profit from EX-AI Bot deposits is distributed across qualifying Legacy Levels.

Each Legacy Level receives a fixed percentage of the global pool.

The amount allocated to a level is then divided equally among all leaders who qualified at that level.

Example (Aurum Elite)

Total Shareholder Bonus Pool: 4,680,312 USDT

Aurum Elite Allocation: 0.25%

Total Amount for Aurum Elite:
 $4,680,312 \times 0.25\% = 11,700.78$ USDT

There are 6 qualified leaders at the Aurum Elite level.

Each leader receives:

$11,700.78 \div 6 = 1,950.13$ USDT

–

47. When Is the Shareholder Bonus Paid?

The Shareholder Bonus is paid every quarter.

Exact payout dates are announced in advance through AURUM's official channels to ensure all qualified partners receive timely updates.

–

48. What Types of Bonuses Are Available?

Aurum offers several types of bonuses within the Partner Program, each linked to your activity, Legacy Level, and team structure:

Direct Sales

Instant earnings from every personal product activation: including deposits, top-ups, and compounding made by users who join through your referral link.

Team Sales

Earnings from the Legacy Volume generated by your entire team. You receive the difference between your Legacy Level and the Legacy Levels of your team members up to 18.5%.

Extra Bonus

A one-time reward for reaching each new Legacy Level. The higher the level, the larger the bonus.

Profitshare

Additional passive income up to 30% – based on your partners' results from EX-AI Bot, EX-AI PRO, and Zeus AI Bot.

Shareholder Bonus

A quarterly bonus shared with partners starting from AURUM ORACLE and above, based on the global efficiency of the EX-AI Bot.

–

49. Do we receive a purchase invoice and a certificate for the gold (for import and tax purposes)?

Yes. Each client receives both a purchase invoice and a certificate confirming the gold purchase. These documents support ownership records and can be used for import and tax purposes according to local regulations.

–

50. Who is the issuer of the certificate, and does it include gold purity and serial numbers?

The certificate is issued by a company based in Sierra Leone. It contains information about the gold, including its purity, and may include serial numbers of the bars, depending on the specific

requirements of the buyer and the transaction.

-

51. Which refinery produces / refines the gold?

The gold is processed and refined by a refinery in Sierra Leone. This refinery is responsible for bringing the metal to the agreed investment-grade standard used within the product structure

-

52. At what price is the gold purchased, and where can we see the purchase price?

The gold allocation is calculated at the current market price at the moment of package purchase. This means the client enters the gold position based on real-time market conditions. Within the product structure, a structural discount is applied to the allocation, which increases the effective amount of gold associated with the package

-

53. Is the gold in the form of coins or bars?

The underlying physical metal is held in the form of bars. This format is standard for institutional storage, auditing, and large-volume custody solutions

-

54. Where will the buyback price be shown if we do not take delivery after 12 months and want to sell?

After the 12-month term, clients may choose to receive their gold allocation either in tokenized form or as physical gold, subject to delivery conditions. The relevant buyback price will still be displayed in the backoffice for that package

-

55. Where can we see the mass / weight of the gold purchased in the package?

The mass or weight of the gold is calculated at the moment of package purchase, based on the current market price and the applied structural discount. This defines the client's gold allocation from the start of the investment period

-

56. Is there any guarantee that the gold exists in physical form, and where is it physically stored?

Yes. The gold exists in physical form and is stored with a Central Bank. This institutional-grade storage is part of the structure used to secure the underlying asset.

-

57. How can we verify that the gold is genuine?

The gold is audited by Bureau Veritas. This independent audit process is designed to verify the existence and characteristics of the metal

backing the product

-

58. Is the gold "Good Delivery" (highest recognized standard)?
The gold will meet LBMA standards.

-

59. How will the gold be stored and where is it actually located?
The gold is stored with a Central Bank acting as custodian. Physical storage is handled within this Central Bank infrastructure in accordance with the agreed custody arrangements

-

60. How often will the quantity of gold that has actually been purchased and is available be audited / verified?
Gold holdings are audited by Bureau Veritas, while cash and bank transactions connected to the structure are audited and executed by one of the most reputable banks in Africa. This combination provides independent verification of both metal and cash flows

-

61. Where will the gold be stored?
The gold is stored within a Central Bank environment, using its vault and custody framework

-

62. Who is the auditor?
Bureau Veritas acts as the auditor for the gold

-

63. Who is the custodian?
The custodian is the Central Bank. At the same time, the beneficial owner of the gold is the individual client, with ownership recorded via smart contracts on the blockchain upon package expiration

-

64. Will there be proof of reserves?
The gold is stored within a Central Bank environment, using its vault and custody framework

-

65. Can returns from the AI-driven trading part be compounded?
At the moment, compounding is not available for the AI-driven trading part of the RWA Gold package. However, this functionality is currently under development and is expected to be introduced in the near future. Once available, clients will be able to reinvest their returns within the product structure.

-

66. Is the package locked in for a year?

Yes. The RWA Gold package is structured for a 12-month term, which means the invested capital remains allocated within the product for one year. During this period, the gold allocation and the AI-driven trading component continue operating within the package structure. After the 12-month period ends, the client may choose to receive the gold allocation in physical gold or in tokenized form, subject to the product terms and delivery conditions

–

67. Can it continue after a year, or does it end when the contract finishes?

The package is structured for a one-year term and does not renew automatically. Once the 12-month period ends, the client may choose to purchase a new package if they wish to continue participating in the product. This allows each client to reassess their strategy and make a new decision based on their goals and current market conditions

–

68. What types of bonuses are available in the partner program for RWA Gold packages?

There are three main types of bonuses available for RWA Gold package sales: Direct Sales Bonus, Team Sales Bonus, and Profitshare Bonus.

–

69. What is the Direct Sales Bonus on RWA Gold packages?

The Direct Sales Bonus is paid on RWA Gold package sales made by your personally referred clients and partners. Depending on your level in the compensation structure, you can earn up to 18.5% on these direct sales.

–

70. What is the Team Sales Bonus on RWA Gold packages?

The Team Sales Bonus is paid on RWA Gold package sales generated by your team. It is calculated as the difference between your Legacy Level percentage and the highest percentage in your team and, depending on your structure and levels, can also reach up to 18.5% on team sales

–

71. What is the Profitshare Bonus on RWA Gold packages?

The Profitshare Bonus is an additional passive income component available from the AURUM Voyager level. It is calculated based on the profitability of the XAUT/USDC pair and can pay up to 30%, depending on your Legacy Percentage and the program structure.

–

72. Do RWA Gold package sales count toward Legacy Volume?

Yes. RWA Gold package sales are included in Legacy Volume: 40% of each RWA Gold package sale is counted toward your Legacy Volume

–

73. What is Neyro?

Neyro is an AI-powered trading product with smart agents that execute trades through smart contracts while keeping full control of funds in the user's own wallet.

–

74. How does Neyro work?

Neyro works through AI-driven trading agents that analyze market data, follow strategy settings, and execute trades on-chain while users keep control of their funds.

–

75. What is available in Phase 1 of the Neyro launch?

Phase 1 is a live closed beta limited to first users. In this phase, the first live Neyro agent, Quantum Alpha, is available. Users connect their wallet, fund their balance, and copy Quantum Alpha's trades in real time through a non-custodial smart-contract setup

–

76. What is available in Phase 2 of the Neyro launch?

Phase 2 introduces the full Neyro agent platform. Users will be able to create their own personalized agents, align them with their strategy and risk profile, discover multiple agents through leaderboards and public profiles, and manage public or private agents with advanced configuration and analytics.

–

77. What is Quantum Alpha?

Quantum Alpha is an advanced trading agent within the Neyro system. It specializes in automated futures trading on popular, highly liquid tokens. All trading is executed exclusively on decentralized exchanges (DEX) via smart contracts, which ensures transparency and the security of your funds.

–

78. How to connect a Neyro agent Quantum Alpha?

Step-by-step guide

Step 1. Log in to your AURUM backoffice

Open your AURUM account and go to the main Dashboard.

Step 2. Open "Financial Proposals"

In the left-hand menu, find the section Financial Proposals and click to expand it.

Step 3. Select "Neyro"

Under Financial Proposals, click on Neyro to open the Neyro trading agents page.

Step 4. Click “Connect Wallet & Get Access”

At the top of the Neyro page, press the Connect Wallet & Get Access button. This starts the connection of your Web3 wallet to Neyro.

Step 5. Connect your wallet

In the pop-up window, choose the wallet you want to link to your AURUM account and click “Connect to WalletConnect”. Make sure your wallet is set to the BNB Smart Chain network so Neyro can access all features.

Step 6. Select your wallet

In the “Connect Wallet” window, choose the wallet you want to use with Nevoro (for example, MetaMask, Trust Wallet or another supported option) and click on it. Make sure this wallet is already installed and configured on the BNB Smart Chain network before you proceed.

Step 7. Check your connected wallet

After approving the request, you will see your wallet listed as Connected Wallet in the Aurum backoffice. Verify that the correct wallet (for example, Trust Wallet) is displayed here. If needed, you can disconnect it at any time by clicking “Disconnect”; otherwise, press “Close” and proceed to work with Neyro.

Step 8. Return to Neyro in the backoffice

Go back to the AURUM backoffice, open Financial Proposals → Neyro again.

Step 9. Click “Get Access”

On the Neyro page, press “Get Access” to activate your early-access slot and link the subscribed funds to Neyro.

Step 10. Select Quantum Alpha as your agent

In the Top Performing Agent block choose Quantum Alpha, enter the amount you want to allocate (within your funded balance) and confirm to start copying the agent’s trades.

Step 11. Confirm the transaction in your wallet

Your wallet will open a contract confirmation window.

Check that the network (for example, BNB Smart Chain), destination address and fees are correct, then click "Confirm" to approve the transaction. After confirmation, the funds are subscribed and your Neyro agent setup is completed.

–

79. Where can I track trading results?

As soon as the funds reach the smart contract, you will get access to a personal page with detailed statistics. There you can monitor trade execution, current metrics, and the overall performance of the agent in real time.

–

80. How is profit distributed?

The profit-sharing model in Quantum Alpha is transparent:

- 70% is your net profit, which remains with you.
- 30% is a performance fee on successful trades, which goes into the "affiliate fee" bonus distribution system.

–

81. Can I stop the subscription and withdraw my funds?

Yes, you can stop your subscription to the Quantum Alpha agent at any time.

–

82. How long does it take to stop copy trading?

The process of stopping the strategy and withdrawing funds from the smart contract takes approximately 48 hours. This time is required to properly close open positions and safely return your assets to your wallet.

–

83. What is the profit commission?

The profit commission is 15% for the first 30 days, 30% from day 31 to 90, and 35% from day 91 onward

–

84. What is "Compute Balance" and related metrics?

Compute Balance shows the resources used to run the trading agent. It is not your deposit and does not affect your funds. "Balance consumed" shows how much of these resources has already been used, and "burn rate" indicates how quickly they are being consumed.

–

85. What does the estimated duration mean?

It shows how long the compute resources may last based on current usage.

–

86. Why do these values appear immediately and not match my deposit? Some values are system-initialized and may appear before actual activity begins. “Funded” refers only to the amount allocated to the strategy, not your full wallet balance. This does not mean that your funds are being spent

–

87. What types of bonuses are available for partners? Partners have access to two Neyro-related bonuses: the Partner Bonus and the Neyro Sharepool Bonus.

–

88. What is the Partner Bonus? The Partner Bonus is an additional passive income component available from the AURUM Voyager level. It is calculated from the profitability of the trading agents in your network and can pay out up to 30%, depending on your Legacy Percentage.

–

89. What is the Neyro Sharepool Bonus? The Neyro Sharepool Bonus is a quarterly distribution model that allocates up to 3.125% of global Neyro profits among partners who qualify from AURUM ORACLE level and above.
